... SO WE SELECT EXCEPTIONAL MAPLE LUMBER FOR THEM

Connor® Sports lumber mill
in Amasa, Michigan (USA)

Connor® Sports hand selects North American maple trees grown north of the 35th parallel, where the shorter growing season produces a more dense and uniform woodgrain excellent for sports flooring.

Since its establishment in 1897, the Maple Flooring Manufacturers Association (MFMA) is the authoritative source of technical and general information about maple flooring and related sports flooring systems. Connor® Sports is a charter member of the MFMA and the 1st member of that group to be certified by the Rainforest Alliance.

Connor® Sports is proud to be the only ZeroWaste company in the sports flooring industry. Recycling, avoiding waste, developing innovative technology and a strong environmental consciousness are a major part of Connor® Sports corporate policy.

Connor® Sports works with FSC (Forest Stewardship Council®). This organization oversees high conservation value forest and protects the communities and indigenous people that rely on the forest. FSC ensures that everyone delivers the most environmentally friendly product.

WE USE THE BEST MATERIAL...

“Hard maple has a fine, uniform texture. It is strong, stiff, hard and resistant to shock and has high resistance to shrinkage”

Wood Handbook 2010 - US department of Agriculture

2/3 of the hard maple forest are located in a few hours radius of the manufacturing facility.

WE CRAFT EXCEPTIONAL FLOORING SURFACES

Connor Sports® hardwood flooring systems are sanded and varnished on site:

Narrow strips are less subjected to shrinkage than wider strips, 2-strip boards or 3-strip boards. That's why **Connor Sports® supplies 20mm x 57mm hardwood maple strips** ensuring extreme dimensional stability and durability.
